Green Schools Program 2009-2010

Mission Statement

The RecycleBank Green Schools Program is built on our commitment to social responsibility as a way of doing business. Through the generosity of communities, RecycleBank members have proven that environmental education is important.

Our goal is to champion the environmental efforts of today's students, creating the environmental leaders of tomorrow. Your Point donations help to make this a reality.

“ This is a wonderful program, both for our school and also our environment. It was good to see the community, the school and the PTA increase their efforts to recycle. Your grant program was the catalyst for that change.

--Rolling Valley ES PTA
